How to Send Art-Work to Airspace Inflatables

Send your art-work on disk/
flash drive or e-mail it to us.

lewellen@airspace.co.za

Acceptable File Formats:

- Adobe Illustrator:
Version 7 - 10 / CS
- CorelDraw (Saved as .cdr)
 - PDF File
 - Eps File
- Any Graphic Image
(jpg, jpeg, gif, tif, etc.)

Files can be sent to our FTP
site. The details are:

Link:

<ftp.airspace.co.za>

Username:

airstore@airspace.co.za

Password:

inflated

Important Reminders:

- Convert all fonts to paths or curves. Without this done we may not have the correct font for your art-work.

Where possible send a PDF
of the art-work with the file to
ensure our conversions are
correct.

- Where possible please give
us the Pantone colour
specifications. Otherwise
save the art-work in CMYK.
- Include all EPS and Tiff files
used in creating your art-work.
- Please do not e-mail files
that are larger than 5 MB.

Important Facts About Sending Art-Work

Because of the various
products we produce, the
specified art requirements
may vary. Over the years,
we have found that a
vector art-work works best
for most of our products.

Remember, these are
tried and tested ways of
interfacing your art-work
with our systems of
production. If for some
reason you cannot get
the art-work to us in one
of the preferred formats,
we are happy to try and
work out other options.
Please feel free to ask our
art department about any
issues you may have.

Our art department is
extensive and would be
happy to offer you a
reasonable rate for
re-working your art-work
should it be needed.
